Water treatment: quick guide

Awaken checklist. Tick each box.

First

- [ ] Use the cleanest water you can find
- [ ] If cloudy, let it settle and filter it through a clean cloth

Boil

- [ ] Bring to a rolling boil for at least 1 minute (3 minutes above 2000 m)
- [ ] Let it cool covered

Bleach (household, sodium hypochlorite only)

- [ ] Use plain unscented bleach and check its strength on the label
- [ ] Use the Awaken bleach calculator for the number of drops
- [ ] Stir and wait 30 minutes: a slight chlorine smell is right
- [ ] If water is cloudy, use double the amount

Never

- [ ] Never mix bleach with other chemicals
- [ ] Do not use scented, colour-safe or thickened bleach

Original checklist written for Awaken. Released into the public domain (CC0 1.0): copy and share freely. A guide only: it does not replace training or the emergency services. Emergency: 999 or 112.
